NO THIRD TICKET

L. F. Johnson Will Accept Committee's Decision.

33s No Intention Of Running Independent.

Will Insist That He Is Regular Nominee.

CONGRESSIONAL RACE IS MUDDLED.

L. Frank Johnson, of this city, who was nominated by one of the congressional conventions in Lexington on Thursday, will go before the Democratic State Central Committee and insist that he is the nominee of the party in the Seventh District. He wil ask that he State Committee declare him the legal nominee and direct that his name be placed on the ballot under the party device.

Should the State Committee decide against Mr. Johnson, and decide tha J. Campbeli Cantrili is the legal noml nee, Mr. Johnson will abide by that He will not have his name decis the ticket by petitiou and support Mr. Satrili as loyally as said that he had no tate Committee, as is a Democrat. He says he will but if the decision is against hlm, no man in the district wlii give to Mr Cantrill more loyal support than he will give. Mr. Johnson contends that the State Committee is the proper candidate is the legal nominee, although he would rather have the case settled by the District Committee which is said to be against Cantrill by a good majority.

When the question will be pre would be called by the chairman, to take up the question, and would then pass on whether Mr, Cantrill or Mr Johnson is the nominee. The whole Aged Paroled Convict question will be threshed out before the Stae Committee and its decision will be final. The announcement made by Mr. Johnson means that there will not be two Democratic candidates in this district, and means that the legal nominee will get the support of the Democrats of the dis-

The following statement of his side of the controversy was made by Mr. Johnson;

"My position is, that the Frankiln County Mass Convention appointing delegates, was null and void on ac count of the rough riding and bulldozing methods engaged in by the Cantrill men and for the further reason that a division was called for, and teliers demanded and the Chairman failed to give the division and appoint tellers, and that he adjourned to the State House yard, a place other than that named in the call for the county mass convention, against the protest of the Kimball men.

"If the selection of the Franklin county delegates was void, as provided for in the party rules, then the Franklin delegates should not have been allowed to participate in the temporary organization.

"Under the present methods of running conventions, the man who can ordinarily, secure nominations. If an election is void the party selected is not authorized to discharge the duties. or said office.

"I went out of the convention haii with the retiring delegates from Bourbon, Fayette and Woodford. My delein the convention which was aftercali of the counties and 47 votes were

stated to be present. With Franklin jority of the delegates select roll was called and ail, 47 vo cast for Mr. Klmball; It v time before he responded. I hea only a part of his speech, When declined the nomination, some one nominated me, and after the vote was taken, the Chairman announced that I was duly elected, and he declared me he numinee, I was not a candidate the position, but I had made a strong fight for Mr. Kimbail, in my county: I had been in the council at the 11 o'clock meeting, and had vigor ously advocated the fight to a finish stiting that I believed we should exer cise every right which had been granted us under the party law. Under the circumstances, I could not lecline the nomination. I think that the State Central Committee should say whether or not it is right for the henchmen of any candidate, to rough ride and buli-doze and in that way entrol our county conventions, is in their judgment they say it is proper, I am too joyal a Democrat to disobey their mandates, I and the rest of the men who were with me will vote for the man, whom eney say was properly nominated."

Bourbon County Wants State Rifle Range

SITE OFFERED THERE AND BE ING CONSIDERED ALONG WITH OTHERS

Franklin county may not get the state rifle range after all, as a site in Bourbon county is being inspected and considered. In fact Adjutant-Gen eral P. P. Johnston has several site under consideration and does no know yet which is the most desirable He said Friday that he had not been able to find a site that was exactly according to requirements, but tha he was of the opinion that he would not find such a site.

Gen. Johnson inspected Trumbo's Bottom Friday morning. But this i. not the Trumbo's Bottom where the body to decide the question of which frogs reside. The bog known among frog hunters as Trumbo's Bottom is in another part of the Trumbo place The bottom land which Gen. Johns ton inspected is well suited for range, and has plenty of space for parade ground. It fronts on the riv sented to the State Committee is not er and offers many advantages. It known, but it probably will be in the has not been secured yet and may no near future. The State Committee be taken at all, even if arrangements can be made.

Will Die Free Man.

So that he may die a tree man, re lieved of the stigma of being a convict, even though he is on parole, William Griever, an nged man, was pardoned Friday by acting Governor W. H. Cox. The pardon was issued after bond had been given to insure that Griever would not become a ward of the State. The story of Griever is nathetic one, and the pardon is only a matter of sentiment, as Griever can not live but a few months, and is out on parole, anyhow. He lives with two spinster sisters, on a farm, and has never been off the farm since he was

Griever was sent to the penitentiary for twenty-one years for manslaughter. He is totally deaf and shot the man, in Griever's story, when he thought the man was nttacking him. After serving several years, Griever was paroled by the Prison Commissioners and went to his home. He is now a, free man, and will die lu greatest volunteer armies that ever

Suit was filed in the circuit court by S. T. Marcus against M. E. Goreffect the temporary organization can, don asking for \$3,000 damages for alleged physicial injuries. The petition is a brief one, alieging merely that Marcus was attacked while walking on the street by Gordon and that he was beat up so badly that he was permanently injured. For this he says he should have \$3,000, and then he the fight.

MANY FIGHTS

Keep County Mass Convention Lively.

Voters Stampede When It Looks Like Trouble.

Hats and Heads Gracked In The Schuffle

INSTRUCTIONS FOR J. C. CANTRILL.

Up in the courthouse last Saturday Mr. Cantrili, afternoon they had a convention. It meeting of Democrats, and If there fight in the convention, the bigger majority at the poils, then this county will go Democratic by about four thousand. It was a lively convention. For several days afterwards, when one met a man with his head bandaged, one would say to him:

"Weil, I see you attended the convention Saturday."

Of course, he did not receive his wounds in that way, but there were several heads cracked and others were more or less bruised in the stampede which followed the numerous fights. One man, who has just came to Frankfort, said:

prehend any danger when the fight jority in the convention, it is proba-"Being a non-resident I did not apstarted, but evidently I did not know Frankfort fights, for the crowd was confident that there would be shooting, and they went out in a hurry, and I went with them. I did not want to go, for I was interested in the fight, but I went just the same."

They say one man, as he passed out of the windows was asked: "How are they coming out in

"I don't know," he replied, "but I know how I am coming out." It happened this way. The convention was called to order by John Griffin. The circuit court room was packed to the doors with a howing crowd of men, nearly all of whom were for Campbell Cantrill, but some of whom were for W. P. Kimbali. The Cantrili men were yeiling at the tops of their jungs with unction, for Cantrill. Mr. Griffin called for nominations for temporary chairman, and John Noei. nominated Somebody eise nominated another man and then a third person nominated Frank Johnson, Everybody was yelling and nobody could hear what anybody said, until the crowd quieted down long enough to hear South Trimbie say he was there in the interests of Cantrili, and that Noei was satisfactory to Cantrlii's friends. Then the yelling was resumed with resulting. The convention did not behind the yagrant and shoved a \$5 the platform and began to speak. He leave any officers the support trill would make this district doubtful prospects good for the largest malore him to have him show cause and would mean the loss of 2.500 juity which Franklin county has ever why he should not be sold. The man,

redoubled energy. Mr. Johnson tool declared that the nomination of Canvotes. The crowd greeted this statement with derision and howied so that Mr. Johnson continued his sneech "with difficulty," to put it mildly. Sent To Penitentiary Actually nobody could hear anything else he said. After ten minutes of this, the crowd, which had been good natured, began to get tired and two or three fights started in various parts of the house. They were MONEY FOUND IN POCKET OF settled quickly, however, and Mr. Johnson resumed his remarks. The crowd resumed its noise. Alex. Henry then mounted a table and ap parently was about to make a speech. Bowman Gaines was already making one, but nobody heard him any more than they did Mr. Johnson, Mr. Henry did not say a thing, but simply penitentiary here, and also caused his stood on a table and pointed his finger at Mr. Johnson. Mr. Gaines continued llams, who was serving a sentence his remarks. Mr. Griffin pounded for order, Mr. Johnson spoke, Somebody pulied Mr. Henry down and others mounted chairs and tables and was a player. One of the players lost spoke. The crowd howled with a \$5 bill and accused Williams of giee and nothing could be heard but stealing it. He had Williams indicted the din of their yells. Mr. Henry then and convicted. Williams began the mounted the rostrum and was shoved service of his sentence, but protested aside. He mounted again and grabbed ail the time that he was Innocent. Mr. Johnson. The two rolled off the Several weeks ago the man who lost platform to the floor. Others jumped the bill found it in the trousers which in and joined the fray. Mr. Johnson he wore the night of the poker game says he was struck several times ln and which he had not had on since the back of the head. All was a that game. These facts were pretangled mass of fighting men, on the sented to the acting Governor and he platform. How many were en issued a pardon to Williams, gaged is not definitely known. Other fights started in other parts of the QUICK RELIEF OF ASTHMA SUFroom and inside the bar it looked like there were a dozen encounters.

Friends of Kimbali had formed a plan to clear the court house and break up the convention held here iast Saturday, but did not put into effect, because they feared the death or injury of one or more men, in the stampede which would have followed. The plan was to have some man on man. the outside of the court room set off some firecrackers while a man on softly said Gov. Cox. the inside, immediately afterward, threw giant torpedoes. It was expected that the crowd would stampede. thinking that the noise came from pistols shots. A fight would have been started, too, to make it more realistic. This plan was abandoned, when it was found that the court room was so crowded, for fear somebody would be seriously injured in the iam. Had it been carried out the grounds would have been laid for a contest from the county, but the stamnede which followed a real fight, was He was put on the auction block, and just as effective, and the Kimbail men about to be sold to the highest bidder named a contesting delegation.

The Railroad Timetable.

How dear to my heart is the railroad timetable, That claims to show ail of the movements of trains From Dan to Beersheba, from Joppa to Bah And gives me a jumbled-up twist in the I study each town, and each hour and each I read through each page with a serious air, l scan every figure and letter that's in it-

> The raliroad timetable, The mixed-up timetable, The tangled timetable At which oft I swear.

The railroad timetable at which oft I swear.

I go at it calmly, with countenance solemn, I pore through it gravely, with earnest intent, I add up the figures I find In each column And try to discover what they represent;

I skip o'er the brink of a dotted-line chasm And try to decipher the time by the fare; I writhe in a fierce mathematical spasm

But can't trall the train that I want to its lair. The rallroad timetable,

The muddled timetable, The vexing timetable At which oft I swear.

I find it the same through the years I grow older, 'Twas doubtless as bad in the days of the past-The maddening, worrying, peace-wrecking folder Prepared by some figuring enthusiast. My pencil skips 'round like the toe of a dancer, My heart is borne down by the weight of my care, But try as 1 may 1 cannot get the answer In any timetable I get anywhere.

FOR THE FARMER.

eting of Indiana ion, by Mrs. State

There are se utter; first, the making of good ond ,the kind of quality of cows; s feed and water given them; third, cleanliness and care; and fourth, the interest taken, and not being afraid

Cows in poor condition, or diseased in any way, produce milk that in turn produces bad-keeping and bad-tasting butter. The very best of cows are none too good.

Quite often the buttermaker complles with every condition necessary for the making of good hutter, and fails because of some detrimental

quality in the milk. Cows fed on an extra quantity of properly selected food will produce more and better milk than will a third more cows fed on anything that comes handlest to feed-the bulk of it dry and poor in quality. Cows that drink from stagnant pools, or that eat weeds, moldy hay or musty corn fodder, or anything in the way of of hay or grain that is damaged, or anything lll-smeiling or highly flavored, will give milk from which good

marketable butter can not be made. Cleanliness does not mean to use care with the milk only after it has reached the milk room. On the contrary. It means that care is necessary from the time you come into possession of your cows until you market, your butter and get your money.

The greatest care and attention should be naid to the cow. The pastures and fields should be well cared for. The stables should be well kept and be whitewashed frequently, and plenty of air-stacked lime should be used as a purifier.

Use nothing but the best of tin buckets to milk in. When the tin is worn off, discard the bucket for milking purposes. Incidentally I will say, never use your milk-buckets for anything else than to milk in.

Everything coming in contact with the milk, cream or butter must be kent in a cleanly condition. Care must be taken of all your milking utensils. Use plenty of warm water and sal soda for washing, and then use hot water, sunshine and pure alr to purify them.

IRON TONIC FOR FOWLS.

Iron is perhaps the very best stimulant that a fowl can have, and a good tonic may be made up as follows: To a quart of water add 1-2 pound of sul phate of iron and 3 or 4 drops of sulphuric acid. When the iron crystals are dissolved the tonic is ready of time.

PRACTICAL FARM BUTTER MAK- The water containing this tonic must not be put in iron or metal vessels. if this is given to adult birds it will Impart tone to the system and give them a bright, healthy appearance. The egg yield will be increased and essentials to the the color of the yolk brightened-A. F. J. in the "Agricultural Epitomist."

HOLDING UP MILK.

Most farmers and country people think that the "giving down" or "holdup" the milk by the eow is a voiuntary act. In fact they fancy that the udder is a vessel filled with milk and that the cow releases or withholds it just as she chooses. But the udder is a manufactory; it is fliled with blood from which the milk is manufactured while you milk. This process is controlled by the cow't nervous system; when she is exclted or ln any way disturbed, as by a stranger, or by taking away her calf, or any other cause, the process is arrested and the milk will not flow. The nervous energy goes eisewhere. The whole process is as involuntary as is digestion in man, and is disturbed or arrested about the same way. John Burroughs.

POSSIBILITIES OF A CITY LOT.

A Miiwaukee. Wis., man gives 'Commercial Poultry" a very interesting report of his success with poultry on a city lot.

To begin with, he says, my poultry house is 27 feet long and 6 feet wide. Two-thirds of this is used as a scratching shed in winter. A yard 15x27 is fenced in for a run in the summer. In the middle of this yard is a platform 6x12, 3 feet from the ground, upon which is built a little sired 6x2 1-2 and 3 feet high. Have also built two little coops, each large enough to accomodate a hen and brood of chicks, and each having a run of 30 square feet attached.

Now as to stock. Have 20 White Leghorn hens and one rooster in the main coon; 57 chleks (52 days old) in the shed on the platform; 51 chicks (22 days old) In the brooder in the scratching sized and two "biddies" in the little coops, with 22 and 15 cirieks respectively; also an incubator in my basement containing 194 fertile eggs, and two hens sitting on 23 fertile eggs. In other words, I have a grand total of 166 birds on a plat of 27x21 feet. Since January 1st, to date, (May 21st). I have gathered 1,327 eggs and have disposed of all I could spare at 25 cents

Into the What has been the experience of ed two Rural Life subscribers in growing for Mr. the "tree" tomato?

STILL IN THE MARKET.

The editor of the "Times" attended a Jersey cattle sale Tuesday. It was his intention to buy a bull or two, a few cows and a lot of helfers. He saw a cow sell for \$2,600. He decided not to buy a cow.

He saw one helter sell for \$1,650, and weanlings change hands at \$400. He concluded not to invest in heifers. He is now in the market for a kind, gentle, unpedigreed milk-goat-Glasgow, Ky., "Times."

How a worthless piece of rough hili-

side and swamp land in Massachu-

setts was turned into a productive meadow, is told by J. N. Dummer, in the "Rural New Yorker" as follows: In 1886 we owned a pasture, 30 acres of which, gently sloping toward a smail run or brook, was covered with a thickly matted growth of alders, gray birch and rose hushes. This growth was cut, and all not large onough to save for stove wood was burned on the spot. The stumps and rocks were removed, leaving a black loam eight to 19 inches in depth fuli of small roots, underneath which was a good bottom of clay. This was plowed in narrow beds, the dead furrows acting as open drains to the brook. It was then harrowed and seeded to grass the last of August. Careful accounts were kent, and enough hay was taken from 12 acres (ail that was reclaimed the first year) In four years to pay all the expense of weighed hay. This encouraged Mr. top-dressed each year, and in 1906 one measured acre which had been seeded 14 years yielded 37-8 tons o weighed hay. This encouraged Mr. Dummer so much that in 1906 he bought a pasture and swamp adjoining this land and at once commenced turning it over. This land had a small hill, and was more rocky, yet most of it was of the same nature as his other land. This land was bought November, 1906, and on November, 1907, he had 21 acres of It in grass: pretty good energy and enterprise for a man 78 years of age. Some of the farmers told him he would not be able to get hay enough to pay for cutting. The hay crop averaged over 21/2 tons per acre first

30 acres more. One thing more in regard to the land. We turn it over again in rive or six years this time getting a much smoother seed bed. We will find the roots decayed and the soil will work ulcely. With top-dressing each year we should be able to get best quality of hay for many years. As to fertirizing, we used at time of seeding In fall, 800 pounds per acre of grass and grain fertifizer (analysis is nitrogen 2.20 per cent. to 3 per cent; phosphoric acid, 16 per cent. to 18 to 13.50 per cent. In the spring oat top-dressing 250 pounds per acre, analysis, nitrogen 8.50 to 9.50 per cent. We have used no fertilizer in the fall after the seeding, depending only

We are authorized to announce SCOTT BROWN as a candidate for have had the effect of bringing the the Legislature, subject to the action of the Democratic Party.

We are authorized to announce JAS. T. BUFORD as a candidate for the Legislature, subject to the action has ever given. The disorder in the of the Democratic party.

The split convention at Lexington is unfortunate, in that it may cost both eandidates. the Democratic ticket many votes in the fall election, but L. Frank Johnson's announcement that he will not be an independent candidate, in case the State Central Committee decides that J. Campbell Cantrill is the legal nominee, relieves the situation greatly. Mr. Johnson says he is thedlun ly. Mr. Johnson says he is a Democrat, and that he will abide by the action of the State Committee. If this committee decides that Mr. Cantrill is the nominee then Mr. Johnson will support the nominee to the best of his ability.

One Democratic candidate in any Congressional district is enough, and every Democrat should show the same spirit as Mr. Johnson. The rule of the party committee should be final and whatever its decision the Demoerats should fall into line and support the man the party committee says is the nominee. As to the merits of the controversy at Lexingon .:; oipp the controversy at Lexington, that is a question which is to be submitted to the State Committee and will be argued at length before that body. The main question seems to be whether or not a county in which a contest iras been flied iras a right to cast a

vote in the temporary organization of the convention.

The rule which has been followed

is to allow the delegation with the regular eredentials, signed by the county chairman, to vote in the temporary organization. In fact we believe the party rules so provide, this having been a frequent and potent cause of spiits. It is a reasonable rule. Suppose there had been contests from every county in the Seventh district. how would the convention at Lexington have been organized? Some rule teil with their own li tor temporary organization must be stablished. The Kimball men conhe temporary ielther delega tion could vote In Bourbon county where they the regular creden e regular delegation eould vote the question of their right to vote was not raised. It would seem resonable that if Franklin county could not vote because of a eontest, that Bourbon also eduld not vote for the same reason.

But this is for the State Committee to determine.

The result of the elections in Ver mont indicates that the Democrats wili eertainly make great gains in the whole country in the presidential election. The State election in Vermont, coming several weeks before the national election, is always taken as a sort of barometer of what will be done in the nation and the Republicans or Democrats as the case may be, gather hope or despair from the gain or loss of strength in the Vermont elections. If there is a heavy falling off in the Democratic vote in Vermont, it usually means the same proportionate falling off in the nation, but if the Democrats make gains in Vermont the party usually makes great gains in the nation.

The Republicans won the election by carrying the State for Lieutenant Governor George H. Prouty, of New Port, for Governor, by about 28,000 votes, over James E. Burk, of Burlington, his Democratic opponent. The piurality is the smallest in a Presidential year since 1892, when it was only 17,965, and was followed by a Democratic national victory, but larger than in 1888, and only slightly less than in 1900. There is a falling off in four years of about 8 per cent. in the Republican vote, while the Democratic vote fell off about 2 per

That no bitterness or soreness re sults from the county convention here last Saturday is considered re personal difficulties which were being settled in the course of fifteen minutes. The convention seems to Democrats close together, instead of spiitting them and the Democratic ticket this fall, will have the biggest majority that Franklin county convention was the fault of no person. It simply resulted from over-en-

The eonvention emphasized one thing. The courthouse is no place to hold a convention where the Democrats really turn out. That court room was so erowded on Saturday that it was hard to find breathing space and that no one was seriously injured in the rush to get out when the figits started is remarkable. Nothmg like an orderly convention could of mutual aid in time of need, but he somest, strangest place one could imhave been held in that small room and the State House yard is a much better place.

Mr. Bryan is awakening great enthusiasm on his first speaking tour of the present campaign, having immense crowds to hear him at every stop. We thought the campaign would wake up and Mr. Bryan get into the game with a few speeches. It has been predicted that the President will do the same thing before the campaign is much older and it looks like a sure and safe bet that he will be unable to restrain his impatience. One bright morning Mr. Roosevelt will decide that the campaign needs to be enlivened and he will take a running jump, feet first, into the midst of the campaign and

STATE COMMIT'I.

DECIDE.

Scott coun opposition cratic con Lexington of Fayette county, the contested delegation from Bourbon and a portion of Woodford's representation, which comprised most of the forces which supported Congressman W. P. Kimball for the nomination, refused to take part in Cantrill's nomination, and, withdrawing from the hall, or ganized a convention of their own in which Mr. Kimball was nominated as their candidate. He. however, re fused to accept and L. Frank Johnson, of Franklin county, was then nominated for Congress by the "rump" convention.

The regular convention proceeded with its business without further interruption. The contesting delegation from Bourbon county, which was for Cantrill, was seated and the convention, composed of this delegation and those from the counties of Oldham, Henry, Franklin, Owen Scott and and three of the eight delegates from Woodford, after going through with the formal routine, nominated Mr. Cantrill by a vote of seventy to one half, the one-half vote being cast by Henry Jesse, one of the delegates from Woodford, who had refused to join the "rump" convention, and who declared that in accordance with the instructions of his county he should cast the one-half vote to which he was entitled for W. P. Kimball.

The convention was called to order at 1 o'clock Thursday afternoon at the auditorium in Woodland Park by M. J. Meagher, chairman of the dis trict committee. The first business in order was the selection of a temperary chairman, M. H. Bourne, of Owenton, was placed in nomination, by the Cantrill forces, while the Kimball delegates named J. M. Thomp son, of Bourbon. When, in the vote by counties, Franklin was called, Judge James H. Polsgrove voted that county's delegation for Bourne. At once George R. Hunt, of Fayette, call ed out: "In behalf of the counties of Fayette and Woodford I protest against the vote of Franklin being recorded.

Chairman Meagher ruled that Mr. ifunt was out of order, and the delegation from Fayette, five of the eight delegates from Woodford and the contested delegates from Bourbon, all of which were for Kimball, withdrew from the hall, retiring to the park grounds near the auditorium, where they held a convention of their own. Theodore Harris, of Woodford, was made chairman, and J. C. Rogers, of Lexington was secretary. When Fayette's name was called G. Allison Holland presented the name of W. P. Kimball, and there being no other nominations, Mr. Kimball was unanimously nominated.

When Mr. Kimball was brought be fore the convention he refused to accept.

Upon the declination of the nomination by Mr. Kimball, Frank Johnson, who led the contest in Franklin county, was nominated by the dissenting convention and accepted. Mr Johnson in a short speech stated that while he is far from a bolter he believes in standing up for the farmers and would accept the nomination un der the condition that the case be laid before the State Central Com mitteemen and that if that body de cided Mr. Cantrill to be the legal candidate he would withdraw and do all in his power to further the interests of Mr. Cantrill.

George Hunt, representing the del egation of Fayette, seconded the sentiments of Mr. Johnson, and the con testing delegations stood adjourned at the wili of the delegates.

The grounds on which the delegates who withdrew from the regular convention based their action, they state, is the refusal of Chairman Meagher to recognize the following party laws which were adopted by the State Convention last spring:

"Election and appointment of precinct committeemen.

ere shail be elected by the ratic voters in such precincts a e of one member who shall te the precinct committeeman

all State, district, legislative or conventions the proceedings ection of delegates or election mitteemen shall be null and the chairman of said mass conrefuses to give tillers and ount of the vote of those present, if said request and count is made; and Central Committeeproper proof so made

bolters claim that these laws ng to teliers were violated at anklin convention and declare hey wiil appeal to the Democrate Central Committee to decide shall be the nominee.

STATE COMMITTEE

ong Democratic politicians here the consensus of opinion that democratic State Central Comill be called upon to decide congressional nominees Thursday is the legal

mocrats returning from the convention, however, brought the news contended up there that Committee, composed of en of the counties comthe Seventh Congressional diswill have the right to decide is the nominee. It was conded by these men that the party was changed at the Lexington matter out of the hands of the State Committee and leave it in the hands of the District Committee.

One or the delegates said that h neard Henry Prewitt, chairman of new rules provided that the District Committee should decide question arising in the district. This delegate said he heard Prewitt read the party law to Campbell Cantrill and say that in his opinion the District Committee would decide the disputed question of nomination.

This view is not taken by the Democrats generally here, and Judge S. W. Hager, who was chairman of the Rules Committee at the State the party law on the subject stands now as it has stood for several years -that the State Committee shall decide disputes arising in a district as large as a congressional district.

The old party law was undoubtedly that the State Committee should de cide, as was settled in the controversy between Gayle and Moody In this very district. The State Committee declared Trimble the hominee and the Court of Appeals said that the law would govern and the decision of the governing body within the party. Frank Johnson, who was one of the nominees of the two conventions in Lexington Thursday, says that the dispute will be settled by th He says that State Committee. would be absurd to allow the District Committee to settle a controversy in which they are vitally interested. Tom Combs. a member of the State Committee from this district, says that the State Committee will settle the matter, and this seems to be the general opinion here and in Lexington. Mike Meagher, also a member of the State Committee, says that the State Committee will settle the controver-

State House Crowd Is Now Running.

GOV. WILLSON, CALLED "HU- Cantaloupe Club MAN DYNAMO," NOW AWAY-STENOGRAPHER RESTING.

Things have been running easy at the State House this last week, ail of the State officials taking a sort of business of the State is not being transacted and transacted well-but that strained and inuswhich everybody wears when the Governor is on deck is missing. Gov. Willson is an indefatigable worker, as his stenographer and sccretary can bear witness, and he keeps things on the jump while he is here. To work untii midnight is a common thing with Gov. Willson. Of course, when a Governor sets for himself the task of answering every letter which he receives, and going into the minutest detail of everything in those letters, that Governor must sit up late or he that Governor must sit up late or he wiii get behind.

Gov. Willson does that. He answers every letter which he receives, and as the mail is so large every day that it wears out a man to carry i only a few blocks, one has some idea of what the Governor has cut out for himself. The Secretary to the Governor usually answers some hun dreds of the letters which are re ceied at the executive office, those let ters being applications for pardons or written by cranks or just the usua miscelianeous letter which comes to every man of prominence. But Gov Willson does not have it that way He follows the line that because the letters are addressed to him, he should answer them. Not being con tent to answer them briefly, the Gov ernor writes voluminously to all his correspondents. If one wants a long letter one need only write to the Gov ernor and one will hear a jot of things. It keeps the Governor busy doing all this leter writing, and he is up to his cars in work all the time Stiil, it is Gov. Willson's failing that he writes too much, his friends say They cite as an instance a pardor which was issued the other day. The pardon was issued to a man who was convicted of petit jarceny and sen tenced to jail for six months. The Governor used three typewritten pages telling why he issued that pardon. It is good for the space-writers. hut hard on the stenographer.

Famous Kaptackian Dies In California.

Rear Admiral Henry Glass, U. S. N retired, died in California at a health resort of heart failure, following an operation performed several days ago at his home in Berkeley. Admiral Glass, who was 64 years old had been ill for two months and his condition had been regarded as critical for some time

Bring Good Prices.

TOTAL OF 51 BELONGING TO COL MILTON YOUNG SOLD IN NEW YORK FOR \$13,820.

(New York Telegraph.)

At the Sheepsheads Bay sales paddock Monday a large consignment of thoroughbred yearlings, from the McGrathiana Stud, of Colonel Milton Young, went under the hammer. In all there were fifty-one young racers sold for a total of \$13.879, bringing the average up to just a fraction less than \$272 each.

This sale, while not up to the aver age of previous years, was an eminently satisfactory one considering the present condition of the great sport As is always the case in a big lot there were some that were led out of the ring for less than \$100, but for the most part the average price was brought.

Henry McDaniel was the only bidder to pay four figures. He made a handsome chestnut colt by Cesarion Kentucky folk during fair week in out of the Hanover mare Design. This Louisville.

colt was the first one led into the

arion

sible for the removal," sald Mr. Toewater in the interview. He did not go further into details as to these conditions, but left the impression that the "night riders" were responsible for the change.

WHITE CITY AND STATE FAIR.

Louisville's Famous Amusement Park Will be Open for Visitors From the State.

The White City, Louisville's great anusement park, built at a cost of \$300,000, will be kept onen through the weck of the State Fair to give the visitors an opportunity to enjoy its multitude of atractions.

This announcement is of the greatest Interest to Kentucky people who will visit the fair, as it doubles the inducement of the trip to Louisville. The White City is the largest amuse ment park in the country outside of Chicago and New York. It covers enough space for a town, and in its bounds can be found amusement and entertainment unlimited.

The peauty of the White City it seif more than repays a visit. The immense Board Walk, built around a broad lagoon, is surounded by the buildings and devices, all of white and handsomely decorated. At one end of the waik is the Shoot-the Chutes, the long incline descending to the lagoon, the long ride down the chutes may end in a delightfui dash over the waters. At the other end of the lagoon is the large band pavilion. Here the Board Walk broadens into a great area, in the center of which stands the lofty electric tower, a structure of impressive beauty, and, when illuminated at night, a dazzling spectacle. Beyond the tower is the German Viliage, with its beautiful shade trees. It occupies in itself enough ground for a park Beyond the viliage is the immense paullion used for concerts dancing &c which overlooks the majestic Ohio river at the most beautiful part of this stream famed for its scenery. Adjoining the pavilion, on the river bank, is an open air theatre and band stand, and further down the restaurant, where one may enjoy a meal beside the river at most reasonable rates.

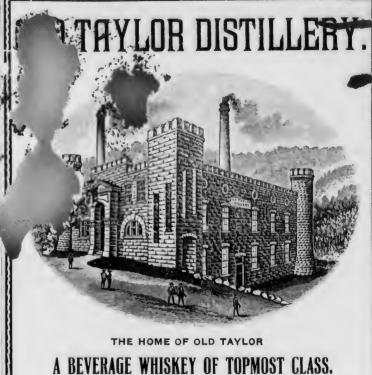

The Scenic Railway, the largest in the world. Is to the south of the Board Walk. A ride on it is a most delightfui sensation of rapid travel, and at the same time perfectly safe. The figure Eight is a similar device, in which one enjoys a ride that is a continuous whirl and a most fascinating pleasure.

The Shoot-the-Chutes, with its inspiring dash down the long incline, and the glide across the waters of the lagoon, is a pleasure of which one never tires.

The Canals of Venice afford a trip in a gondola of a quarter of a mile through a reproduction of the Italian

The amusement of the Board Walk are too numerous to mention, but the Third Degree and the Laundry of racing in the State of New York. may be mentioned as affording fun One excellent sign in the bidding that alone is worth the trip to Louisville.

The White City is situated almost adjoining the State Fair and on the same car line, and can be reached without the slightest trouble by all fair visitors. It will be a delightful place to repair to after the fair has been enjoyed, and the White City's beauties and innocent amusements successful bid of \$1,000 for a very will doubtless please thousands of

IS THE BURLEY SOCIETY A TRUST?

The attack on the "Equity Trust" rial responsibility and which it has is a monopoly. systematically and maliclously conthrued slnee, is an attack on the Burley Tobacco Society alone. With the American Society of Equity the Trlbune has no concern, except that the American Society of Equity advocates products, a principle which the Burley Tobacco Society has applied to the marketing of White Burley tobacco. No more is the Commercial-Trlbune concerned about the tobacco organizations in the State which control other than White Burley tobacco. But being itself interested or close ly connected with those who are interested in Burley tobacco, it makes this continued onslaught on the Burley Tobacco Society because the success of the Buriey Society causes certain tobacco interests temporary in-Incidentally, too, it sion Tobacco Warehouses.

Not only in its commercial columns but in its editorial columns as well (are they also commercial?) the Tribune begs the question and appeals ferring to the Burley Tobacco Society co Society is a trust. In the sweat of their brows the members of the society grew the tobacco which they hold and control. It is theirs, and they do not intend, if they can prevent lt, that any one shall get hold of it for less than its reasonable value, or no matter for how much above its reasonable value, in a way that would weaken the organization and Injure or destroy its efficiency in protecting the growers' interests in

For this latter reason the district board of control discourages the transfer elther of tobacco or of certificates, because they want the grower to hold on in the fight and secure all the advance in price; and for this reason, too, the board demands that every man who entered into compact to hold his tobacco in common with all petition. The instructions given this others in the society abide by his con-

The compact was entered into with the understanding that every member took equal risks with equal hopes of advantage. If any member, either to secure an immediate sale or to get a higher price than that at which his tobacco is graded in the contract, breaks his contract, he is guilty of a breach of faith that any man of honor would scorn and which the last General Assembly made by statute a misdemeanor. The man who enters into the compact and then breaks it throws upon those who do act in good falth ali the liabilities which he assumed with them and appropriates ail the advantages which was to be mutual. Any honorable man knows how to class such a fellow-albeit there may be extreme cases in which the society should make exceptions to its just rules, or in some way provide for the man in extreme straits.

The Tribune's effort is to convey lessen the profits of one grower. which the Cincinnati-Commercial the Impression that the Burley Tobac-Tribune began with great virulence co Society is a monopoly in the same seem able to protect the farmers now eral good. If this be true of indi-August 2, for which it assumes edito- sense that the American Tobacco Co. against this greedy combine and they

> ences between the natures of the two are dealing with what they produce organizations: First, in the way the by their own toil and not with what property controlled is acquired, and, they have acquired by outwitting second, in the purpose for which this some one else. control is acquired. In one instance co-operation, and an opportunity to American in the other it came through compethe strong few. One is a corporation of the few. One tends to equalize and pays no dividends.

What the Burley Tobacco Society takes up the cudgel for the Commis-, seeks to control is the supply of the loose White Burley tobacco, the product of the labor of its members. The object of such control is the advantage of each member. The American Tobacco Company controls the loose leaf, the manufacture and the to popular prejudice by always re- sale of the manufactured article, toas the "Equity Trust." The present gether with contributory industries, writer denies that the Burley Tobac- as the licorice business, the box and bag business. The commodities which controls are the products of the iabor of those whom the company seeks to shut out or to absorb for the benefit of the American Tobacco Co, and not for the benefit of those who produced the values. In the acquisition of these values they are said, by one who has been very gentle with them, to have used the methods of the "pirate, the plckpocket and the porch climber." One house built up a brand and the American Tobacco Company acquired the brand, not for the benefit of the house that bullt it up, but for the benefit of the American Tobbacco Co.

> A former employe of the American Tobacco Company gives this writer the following example of the company's methods of overcoming comsalesman by his employers were, in dealing with a retailer in a town where a disposition to patronlze home industries by using the product of a local factor, to refuse to sell the retail merchant any trust goods unless the merchant agreed to discard the products of the local factory for trust products throughout. For instance, if the local factory manufactured plug tobacco, refuse to sell the merchant smoking tobacco unless ho took also trust plug. If this did not work, sell him the smoking tobacco and give him ali the plug he could use!. If the local factory manufactured cigars or other smoking tobacco, refuse to sell him plug tobacco for the trust to sell him plug unless re discarded the local smoking tobaco for the trust smoking tobacco. If this failed, sell him the plug and give him all the smoking tobacco he could possibly

the control comes through voluntary the Burley Tobacco Society and the co-operate is extended to every man; the recognition of the State. One tition which crushed out every man hands of the masses that all people except the whner. The purpose of may thrive and support both their inthis control in one instance is the dividual and their community intergood of each man co-operating; in the ests; the other seeks to reduce the other the purpose is the destruction! masses to the minimus wage while of the weak man for the benefit of large fortunes amass in the coffers without capital, not for corporate gain wealth by a just distribution of profand therefore has no watered stock its, the other tends to concentrate wealth produce congestion and corruption in Wall street while the farmer is kept just out of reach of want. One seeks the greatest good of the greatest number, the other seeks the aggrandizement of the few.

The Tribune writer parallels the charge that the American Tobacco Company has destroyed the business of others by charging that the Burley Tobacco Society has Inconvenienced business of the commission tobacco warehouses and the speculative deal-

If the judependent manufacturer suffers hardships it is the power of the trust that he has justly to complain of. He can not demand that the grower of tobacco furnish him raw material at a sacrifice in order that he may be able to cope with the trust Let the independent manufacturer make his fight against the trust that has hurt his business, the combination that has squeezed out the many for the benefit of the few. trust has truly said that the price of tobacco would not affect their business hurtfully so long as all manufacturers paid the same price for raw material. The Burley Tobacco Society sells at a uniform price.

Until the Tobacco Trust choked PLANTERS them out the commission tobacco warehouses and the tobacco speculator lived off of the folly of one end of the tobacco-growing business the selling end. Growers sold tobacco at auction in the commission warehouses for anything it would bringin many instances getting from a little to much less than nothing for it, organization, shall be made until the those conditions. Officials of the as- Mrs. N. E. Greene, secretary of the They sold tobacco to speculators for 1907 crop has been finally disposed sociation say they confidently expect association, a complete list of the low prices and the speculators held of, it for high prices. The farmers have found both of these methods to be cated, the American Tobacco Company has greatly decreased the volume of sales by the first method because commission houses as well as at the barns, and the farmer had only extra trouble and expense without competition when he shipped to the city mar-

beti- bution is best which makes the largited est return to the producer without unican duly burdening the consumer. No part of the machinery in any of these processes has any claim to perpetulty except as it does its work economically and well. If the commission warehouse and the speculative dealer have nu- been an unnecessarw expense to eith-1 a er producer or consumer they have bing forfeited their claim to a place in the metition economic scheme. The rewards of busi- society are for those who serve it; vers it has no system of bounties for those ness who cast more than they come to. eek A man is either self-supporting through the contribution that he makes to the general good, or he is a beneficiary of the State. There is no way by which the economic body is under obligation to make for him a place which is a tax upon the body Instead of a contribution to the genviduals much more is it true of insti-
